To Whom It May Concern:

TSCA's Directive & Declaration of Conformity for PBT's

As required under the Toxic Substances Control Act (TSCA) , the Environmental Protection Agency (EPA) issued five (5) final rules on January 6, 2021 to reduce exposures to certain chemicals that are persistent, bioaccumulative and toxic (PBT).

- Decabromodiphenyl ether (DecaBDE)
- Phenol, Isopropylated Phosphate 3:1 (PIP 3:1)
- 2, 4, 6-tris(tert-butyl)phenol (2, 4, 6-TTBP)
- Hexachlorobutadiene (HCBd)
- Pentachlorothiophenol (PCTP)

Cortec Precision certifies that it is compliant with the requirements of TSCA regarding the five (5) PBT chemicals listed above and that none of the above-mentioned chemicals are intentionally used or added to products produced for our customers. This Declaration is based upon information provided to us by our suppliers of raw materials and/or components used in the manufacture of products for our customers.

The US Toxic Substances Control Act aims to identify and reduce the use of PBT's for the protection of human health and the environment through better and earlier identification of chemical substances.

Cortec Policy

It is Cortec's policy to conduct business in a manner consistent with sound environmental management practices and to comply with applicable environmental laws and regulations. Through the use of best management practices, improvements are continually made to conserve natural resources and to minimize the use of environmentally sensitive materials.

Cortec is a metal fabricator and does not manufacture anything with PBT's or generate it as a byproduct.
